# L'AZIENDA

— THE COMPANY / L'ENTERPRISE

Nella cornice romantica di Urbino nasce Euro Design, un'azienda dinamica e creativa, sempre alla ricerca di idee nuove e originali, presente nel mercato da 35 anni con un crescente consenso italiano ed internazionale. La qualità e l'affidabilità sono caratteristiche riconosciute da moltissime famiglie che per anni hanno scelto e continuano a scegliere gli arredi Euro Design. Il nostro obiettivo è quello di soddisfare il cliente distribuendo prodotti di design, unici, di qualità, innovativi e soprattutto conformi alle sue aspettative. Presenti da anni in riviste specializzate d'arredamento e online, lavoriamo costantemente affinché il nostro pubblico possa restare in contatto con noi, maturando fiducia verso l'azienda: consideriamo la comunicazione un elemento di successo e di crescita capace di determinare un'importante intesa con il consumatore.

EURO DESIGN was born in the romantic setting of Urbino as a dynamic and creative company always looking for new and creative ideas. Present in the market for 35 years with a growing Italian and international consensus with quality recognized by many families who find in EURO DESIGN reliability and quality. The goal is to satisfy the customer by providing unique, innovative, quality, design products that meets his expectations. At the forefront on the internet and with continuous advertising campaigns in specialized furniture magazines maturing in our public trust and reliability. We consider communication an element of success and growth capable of determining an important understanding with the consumer.

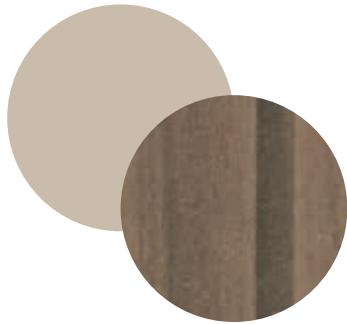

EURO DESIGN est née dans le cadre romantique d'Urbino, une entreprise dynamique et créative, toujours à la recherche d'idées nouvelles et originales, présente sur le marché depuis 35 ans avec un consensus italien et international croissant. La qualité et la fiabilité sont des caractéristiques reconnues par de nombreuses familles qui depuis des années ont choisi et continuent de choisir le mobilier EURO DESIGN. Notre objectif est de satisfaire le client en distribuant des produits design, uniques, de qualité, innovants et surtout conformes à ses attentes. Présents depuis des années dans les magazines spécialisés dans l'ameublement et en ligne, nous œuvrons en permanence pour que notre public puisse rester en contact avec nous, en gagnant confiance en l'entreprise: nous considérons la communication comme un élément de réussite et de croissance capable de déterminer une compréhension importante avec le consommateur.

# BEPOL

Beige / Noce rigato

**IT** Un puzzle non casuale di elementi contenitivi che si inseguono lungo diverse direttive: Bepop è un meraviglioso caos addomesticato che accontenta anche i palati più creativi in fatto di arredamento. L'elemento modulo base di Bepop è realizzato in folding, una lavorazione inconsueta che consiste nella piegatura del pannello necessaria a produrre il contenitore, solitamente realizzato invece dall'unione di più pannelli. Ne risulta un modulo ripulito da qualsiasi interruzione o linea di giunzione. Ogni elemento, esteticamente reso quindi sobrio ed essenziale, è disponibile a combinarsi in linea retta o sfalsata, realizzando comò e comodini dall'aspetto incredibilmente dinamico e giocoso. Per una composizione più ricca e un gusto più vicino al tradizionale, è possibile richiedere il frontale dei cassetti in finitura noce rigato, una nuance che riscalda un ambiente già reso particolarmente accogliente e felpato dalla finitura beige.

**EN** A non-random puzzle of containing elements that follow each other along different directions: Bepop is a wonderful tamed chaos that satisfies even the most creative palates when it comes to furnishings. The basic module element of Bepop is made by folding, an unusual process that consists of folding the panel necessary to produce the container, usually created instead by joining multiple panels. The result is a module cleaned of any interruptions or joining lines. So each element, aesthetically sober and essential, is available to combine in a straight or staggered line, creating dressers and bedside tables with an incredibly dynamic and playful appearance. For a richer composition and a taste closer to the traditional, it is possible to request the drawer fronts in a striped walnut finish, a nuance that warms up an environment already made particularly welcoming and plush by the beige finish.

**FR** Un puzzle non aléatoire d'éléments de contenu qui se succèdent selon des lignes différentes directives: Bepop est un merveilleux chaos apprivoisé qui satisfait également les palais les plus créatifs en matière d'ameublement. L'élément de module de base de Bepop est réalisé en Folding, un procédé insolite qui consiste à plier du panneau nécessaire à la production du conteneur, généralement fabriqué à la place de l'union de plusieurs panneaux. Le résultat est un module nettoyé de toute interruption ou ligne de couture. Chaque élément, esthétiquement réalisé donc sobre et indispensable, il est disponible à combiner en ligne droite ou en quinconce, créant des commodes et des tables de chevet à l'aspect incroyablement dynamique et ludique. Pour une composition plus riche et un goût plus proche du traditionnel, il est possible de demander la façade du tiroirs en finition noyer rayé, une teinte qui réchauffe un environnement déjà rendu particulièrement accueillant et cossu avec une finition beige.

# GROOVE

Grigio / Rigato fresato / Marmo

**IT** Un sistema di elementi sovrapponibili in linea retta per creare strutture uniformi e slanciate: Groove è un disegno logico e una promessa di rigore progettuale senza rinunciare alla possibilità di cambiare ritmo grazie ai frontali dei cassetti solcati da vivaci fresate, una sensazione visiva e tattile inedita. Comò e comodini così combinati possono ulteriormente essere personalizzati dalla piana in vetro serigrafata marmo, una finitura di rara eleganza che a seconda dei gusti può ripetersi anche nell'armadio a due ante scorrevoli. Mai banale, Groove si perfeziona con eleganti letti moderni, dalle testiere imbottite disponibili in diverse grandezze, tutte finemente rivestite per un gradevole effetto da intimo rifugio.

**EN** A system of elements that can be stacked in a straight line to create uniform and slender structures: Groove is a logical design and a promise of design rigor without giving up the possibility of changing pace thanks to the drawer fronts furrowed by lively milling, a new visual and tactile sensation. Dressers and bedside tables combined in this way can be further customized by the marble silk-screened glass top, a finish of rare elegance which, depending on taste, can also be repeated in the wardrobe with two sliding doors. Never banal, Groove is perfected with elegant modern beds, with padded headboards available in different sizes, all finely upholstered for a pleasant effect of an intimate refuge.

**FR** Un système d'éléments pouvant être superposés en ligne droite pour créer des structures uniformes et élancé: Groove est un design logique et une promesse de rigueur de conception sans renoncer à la possibilité de changer de rythme grâce aux façades de tiroirs sillonné par un fraisage vif, une nouvelle sensation visuelle et tactile. Commodes et tables de chevet ainsi combinés, ils peuvent en outre être personnalisés depuis l'appartement dans verre sérigraphié en marbre, une finition d'une élégance rare qui selon les goûts il peut également être répété dans l'armoire à deux portes coulissantes. Jamais banal, Groove oui parfait avec des lits modernes et élégants, avec des têtes de lit rembourrées disponibles en différentes tailles, toutes finement tapissées pour un agréable effet de refuge intime.

# TIFFANY GLAMOUR

Tortora lucido / Effetto bronzo / Oro opaco

**IT** La collezione notte Tiffany Glamour è una raffinata composizione per la camera da letto che nasce dal gusto per il design tradizionale Made in Italy ma che si fa notare per tagli e accostamenti moderni. Tiffany incanta grazie alle sue sfumature che oscillano tra il tortora e la finitura dei mobili effetto bronzo, per un'ambientazione avvolgente, sofisticata e illuminata da dettagli dorati. La qualità di Euro Design si riconosce nella fattura del letto con testiera imbottita trapuntata in velluto brown in armonia con la sua cornice bronzo (con presa USB e luci LED sul retro), nelle superfici brillanti di comò, comodini, settimino e armadio, nei piedini in ferro e nelle maniglie verticali verniciati oro in finitura opaca. L'armadio ha 2 ante scorrevoli con chiusura soft closing e specchi esterni molati, incisi e bronzati.

**EN** *Tiffany Glamour night collection is a refined furniture composition for the bedroom which stems from the traditional Made in Italy design but stands out for its modern cuts and combinations. Tiffany enchants with its shades between glossy dove gray and bronze brown effect, for an embracing, sophisticated setting enlightened by golden details. Euro Design quality is recognized in the manufacture of the bed with brown velvet quilted padded headboard in harmony with its bronze frame (with USB socket and LED lights on the back), in the bright surfaces of the dresser, bedside tables, tallboy and wardrobe, in the iron feet and in the vertical handles painted in matt gold finish. The wardrobe has 2 sliding doors with soft closing and external ground, engraved and bronzed mirrors.*

**FR** *La collection nuit Tiffany Glamour est une composition raffinée pour la chambre qui vient du goût pour le design traditionnel Made in Italy mais qui se démarque pour des coupes et des combinaisons modernes. Tiffany enchanter grâce à ses teintes qui oscillent entre le gris tourterelle et la finition des meubles effet bronze, pour un décor enveloppant, sophistiqué et illuminé par des détails dorés. La qualité Euro Design est reconnue sur la facture du lit avec tête de lit capitonnée matelassée en velours marron en harmonie avec son cadre en bronze (avec prise USB et éclairages LED au dos), au surfaces brillantes des commodes, tables de chevet, armoires et armoires, dans les pieds en fer et dans les poignées verticales peintes en or finition mate. L'armoire a 2 portes coulissantes avec rétroviseurs extérieurs à fermeture amortie et rectifiés, gravés et bronzés.*

# TECHNICAL INFORMATION, USE AND MAINTENANCE INSTRUCTIONS

---

## DESTINATION OF USE

- Furniture must not be used for purposes other than those specified by the manufacturer.
- Furniture must not be used in extreme climatic conditions, such as particularly hot or particularly cold rooms. The use of furniture in areas with high humidity (such as inadequately insulated basements or not airy rooms) or with the presence of saltiness could compromise its use and durability.
- Furniture must be kept in dry storage.
- Furniture is not designed to support particularly heavy weights.

## INSTALLATION

- Furniture must be installed by qualified personnel with suitable equipment, following the fitting instructions carefully.
- During the installation handle the elements carefully.
- Any tampering or modification of the furniture not authorized by the manufacturer may compromise the duration, stability, performance or aesthetics and consequently void the warranty.

## SAFETY STANDARDS

- Furniture must be placed on horizontal and stable planes of appropriate size after checking the flow.
- Do not place the furniture near open flames.
- Do not put the furniture in contact with heat sources.
- Do not pour liquids on the surfaces. In case of accidental spillage, dry immediately.
- Do not scratch the surfaces.
- Do not drag objects without scratch-proof rubber on the surfaces.
- The continued exposure of furniture to sunlight can alter the colour of the surfaces compromising their aesthetics.
- Before moving the cabinets, remove the contents and close and lock doors and drawers.
- Do not drag the furniture.
- Do not climb, sit or lean on furniture, use them for purposes other than those provided by the manufacturer.
- Do not load shelves and drawers beyond what is allowed.
- Do not place heavy objects on suspended surfaces.
- Do not force the opening of locked doors and drawers.
- Do not hit the furniture especially the glass surfaces.
- Open doors and drawers using the appropriate handles where required.
- Do not force the opening of rotating mobile parts beyond their maximum opening.
- Do not hang yourself or hang objects from doors and drawers, especially if open.
- Do not leave doors and drawers open.

## CARE AND MAINTENANCE

- The lighting on the surfaces must be homogeneous to avoid on the long period colour differences, in particular on veneered or coated surface.
- Clean regularly the furniture with slightly wet soft cloths, using a little water or non-abrasive neutral detergents. In case of doubt, try cleaning a hidden or non-visible part.
- Do not spray liquids directly on the furniture, but spray the cleaning product on the cloth.
- Do not use abrasive cloths for cleaning.
- Do not use aggressive detergents or solvents.
- The fabrics should be brushed with soft, aspirated brushes. Immediately remove liquids or other substances with a soft cloth or a damp sponge.
- The leather-covered surfaces should be cleaned with a slightly wet cloth without rubbing vigorously, in the case of persistent stains use specific products for leather cleaning.

## DISPOSAL

- Do not dispose of furniture and related packages in the environment.
- Furniture at the end of their life cycle must be bring to the existing disposal structures according to the current regulations. The furniture before being given they must be carefully disassembled.
- Packages must be bring to the existing disposal structures according to the current regulations.
